

Test Data:

1. Saving a Recipe:
 - Test with a valid recipe entry.
 - Test with an empty recipe entry.
2. Viewing Saved Recipes:
 - Test with no saved recipes.
 - Test with multiple saved recipes..
3. Exiting the Application:
 - Test the exit functionality.

Test Scenarios:

1. Saving a Recipe:
 - Enter a valid recipe and click "Save Recipe". Ensure the recipe is saved correctly.
 - Leave the recipe entry blank and click "Save Recipe". Verify that an error message appears.
2. Viewing Saved Recipes:
 - Open the "View Recipes" window with 1 recipe saved, ensure that the recipe is there
 - Open the "View Recipes" window with multiple saved recipes. Verify that all saved recipes are displayed correctly.
3. Exiting the Application:
 - Click the "Exit" button on the main window. Confirm that the application closes without errors.

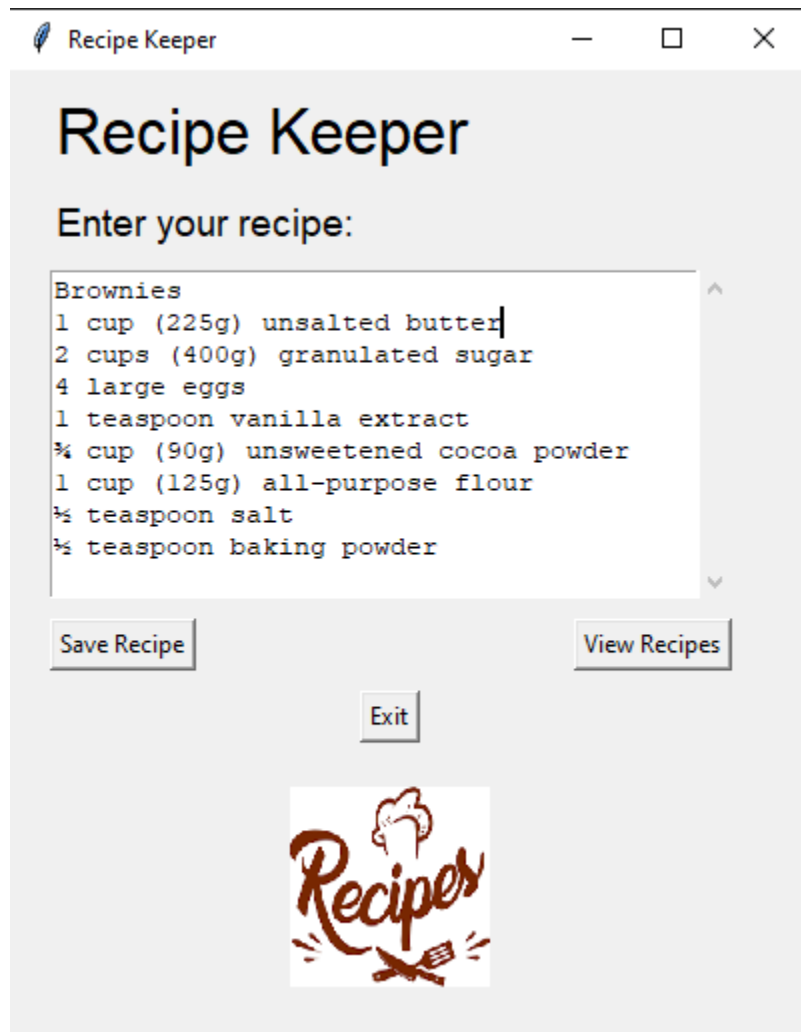

Test Results:

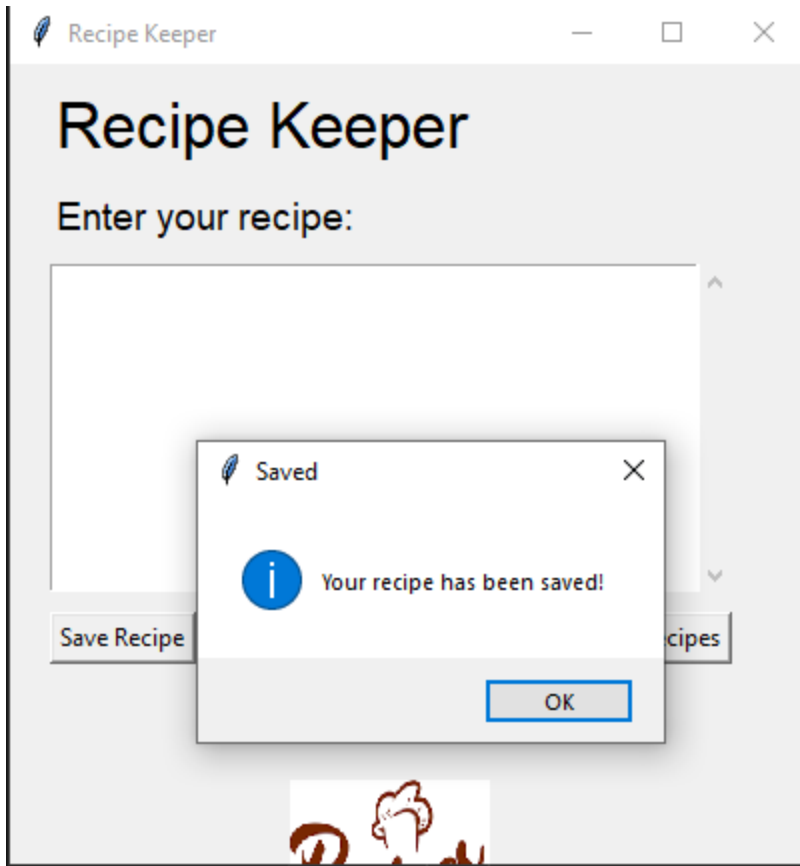

1. Saving a Recipe:
 - Valid recipe entry: Passed.
 - Empty recipe entry: Passed. Error message displayed correctly.
2. Viewing Saved Recipes:
 - 1 saved recipe: Passed. The Recipe was displayed
 - Multiple saved recipes: Passed. All recipes are displayed correctly.
3. Exiting the Application:
 - Exit functionality: Passed. The application closes without errors.

Fixes:

No fixes were required during testing. The application behaved as expected for all test scenarios.
